Invitational Hockey Tournament March 22 – 27

## **DAILY NEWS**

**TUESDAY MARCH 23, 2010**

### **DIVISION A MATCHES**

#### **Alliance 4 (5 pts) vs. Pro-Drill 4 (5 pts)**

A second tie in as many matches for the defending Champion Alliance Tubulars will make it virtually impossible for their chance of a three-peat. Jeff Mitton, made up for taking two consecutive penalties, by scoring in the third period to put Alliance up by one. Less than one minute late Wade Patterson fired one past Jasen Kipling to deadlock the contest at 4-4. Defenceman / Forward / Rover Darren Deschamps had two goals for Alliance

#### **Canadian Energy Services 9 (8 pts) vs. Trican 5 (2 pts)**

The high powered CES offence was running on all cylinders as they scored 9 goals, to overtake Trican 9-5. Big games by Jason Caldwell – 3G 2A, Nels Eckland 3G 1A, and Mike Cameron 2G 1A, lead the way for CES. Trican had a 3-2 lead after the first period, with Bobby Hutt collecting 2G. CES took charge with 5 goals in the second period alone. Sources say one more performance like that and Marty Pituch could be replaced as GM.

#### **R3 4 (7 pts) vs. Continental 2 (3 pts)**

Scott Kirton had two third period goals to win the third and the game as R3 took 7 points in a 4-2 win over Continental. With a one loss and one tie continental will be in tough to play on Friday. Matt Edgelow, and Aaron Mills scored foe continental. Dean Rutledge and Brian Bouchard had the other goals for R3.

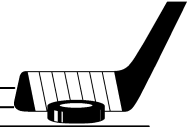

#### **Savanna 5 (8 pts) vs. Alberta Tubular 3 (2 pts)**

Savanna beat Alberta Tubular 5-3 taking 7/10 points. Johnny "Top Shelf" Pietrovito opened the scoring for ATP, but the potent Savanna offence took over. Dan Logan and Rob Butler with 2G a piece, were too much for ATP goaltender Kenny Pitts to handle. Slick playmaking center Ryan Ganske had two helpers for ATP in the loss. \*\*\* Don't forget Savanna forward Travis Porter will be buying drinks in the lounge tonight to celebrate his Birthday!

Invitational Hockey Tournament March 22 – 27

**DIVISION B MATCHES**

**IRM Consulting 5 (5 pts) vs. Petrowest 5 (5 pts)**

Glen Soroff was the hero as he scored an unassisted goal with 4 seconds remaining to tie the period and the game for Petrowest. I guess if you are going to wear number 66 you had better back it up. Jonathan Hamilton did just that collecting three assists for IRM in the 5-5 tie. Kyle Thompson had two goals for IRM in the draw.

**Schlumberger 4 (5 pts) vs. Mudco 4 (5 pts)**

Schlumberger and Mudco skated to a hard fought 5-5 tie, splitting the 10 points down the middle. Darren Stewart scored for Mudco...I mean...Schlumberger...I mean...well, he plays for Mudco but scored in his own net. Money was changing hands fast and furious in the lounge as people who bet that Jason Cemet wouldn't touch the puck this tournament had to pay up. Not only did he touch the puck, Jason collected his first assist in organized hockey.

**Peak 6 (9pts) vs. Sanjel 1 (1 pt)**

The highly touted Sanjel squad came out flat as they were dominated by Peak 6-1. Peak collected 9 of the possible 10 points. It was hard to tell who lead the way for peak. They neglected to put numbers beside the names on the score sheet. Number 7 had 2g, 1A for Peak. Probably that sandbagger Balmer! High draft picks Laird Gillis, Andre Potiras, and Ken Hudgeon, will have to pick up the pace if Sanjel has any chance of playing Friday.

**Triumph Tubulars 5 (10pts) vs. Emerald Metals 0 (0 pts)**

The first shutout of the tournament goes to Darren Taciuk, as his Triumph Tubular squad blanked Emerald metals 5-0. Jeff **GRUSIE** kept his comeback point scoring streak going at 2 games. Jeff Lane and Shane Bachmeier had two goals a piece for Triumph. Emerald Metals coach Dennis Ranks did retire his Live Wire clothes, but did break out his Frankie & Johnny's gear for last night.
